

AUGUSTANA

MIKKELSEN LIBRARY NAMING OPPORTUNITIES

THE CAMPAIGN FOR AUGUSTANA COLLEGE

The Mikkelsen Library is the intellectual center of the Augustana campus. It is a dynamic place, constantly adapting to new opportunities in technology while preserving the extraordinary riches of past learning and scholarship.

Thanks to a generous lead gift, made anonymously, the Mikkelsen Library is being transformed. Today, our library is a reservoir of ever-growing electronic and print resources. Students, faculty, and community members will navigate this expanding knowledge universe in a completely renovated setting that incorporates the latest technology in information retrieval within comfortable group, individual, and quiet study areas.

We are off to a great start! The result of Phase One is breathtaking. To complete the project,

additional funding is being sought through naming gifts. These are once-in-a-lifetime opportunities to participate in the re-creation of the Mikkelsen Library and secure its future as the academic centerpiece of Augustana and the Sioux Falls community.

Please contact us for a personal tour of the library spaces. We would consider it an honor to meet with you and share the wonderful story of our transformation that is, and is to come.
